Gem Boys Put Up Good Fight
But Lost Out in Ninth

The Bassano Ball Boys were at home to the Gem Hill chassis on Saturday last and, thanks mainly to a rally in the ninth, when Vern Oderkirk smashed a two-base hit with two men on base, the boys were able to send the Gem bunch home bugging the thin end of the stick.

Bassano began the contest with a quiet, slow offensive, every man up hitting the ball at leisure, and at the time the retreat sounded, Billy's shock troops had tagged six prisoners. To the revenue the Gem boys had not recovered from the effects of the attack, but when Pine's copper began to roll, it initiated a counter offensive which resulted in the regaining of all the territory they had lost with a little bit extra for luck.

Until then the game looked like a bushel of No. 2 hard to score because on the local, but with this inning the Gem boys pulled up their socks, hauled in the stakes and laminated Pine's offering, the four corners of the diamond, and when the dust settled after the riot it was found that Gem had cracked over enough runs to make the score 9-8 in favor of themselves.

Then things began to happen quickly. Billy put up a gallant fight, but the Gem boys, under the leadership of Graham, who strained his left leg in making a fly, called Oderkirk off the bench, and stopped the rot; Graham holding the opposition fast for the rest of the game while Oderkirk as before mentioned rapped out the winning hit.

It was evident from the game that Bassano has a better aggregation of players this year than they had had since the old profession day and still the strengthening of the pitching staff they will be a hard bunch to beat.

Sons of the new players seem to have the real goods: Somerville, especially, catches the eye of the fans with his heavy hitting and good field work.

Several classy plays were pulled off during the game, which Billy says is only a taste of the sort of ball the team will put up when they have settled down to their stride.

The Gem boys, too, put up a good exhibition and they will not hesitate to take down from many teams if they continue to show up the class of ball they showed during their games with the locals.

The line up was as follows,

Bassano	Gem
Stenell	s.s.
Furiar	c. f.

Lathom To Have Red Cross Branch

The ladies of Lathom district are endeavoring to start a branch of the Red Cross Society and with this object in view, together with another praiseworthy community scheme for improving the Schoolhouse, they are holding a Box Social in the Schoolhouse on Saturday May 26th, which will commence at 7.30 p.m.

A good entertainment program

A Word in Season

To People Who Have Aspirations
And Other Things

A pleasing feature of the Military Service Act in some of its ramifications is the opportunity it has presented to several of our townspeople to do "their bit" by a little back door correspondence, and a concerted plan of private detective work which would epithet them to Leon Clegg, were they citizens of this country that their ordinary every-day activities of speech, and their inabilities in work would seem to imply they are in sympathy with.

It is pathetic indeed that these people should imagine that their path of duty lies in spiteful, underhand and despicable attacks on others who have, in the main, contributed far more to the cause of winning the war, both in actual offers of service and by contribution to the different funds which have been opened in town than these snooping workers in the dark have ever dreamed of.

If their activities been inspired by the pure spirit of patriotism no one could have found fault with them, but when their reports have been the outcome of small minded clique no expression of condemnation can be too severe for their conduct.

The absurdity of the matter also is really beyond the imagination of sense, well-balanced minds, for these self-styled patriots have the impudently to take unto themselves the credit for the re-examination of several of our young men who have been called to Calgary just lately, whereas, as every intelligent person knows, the re-examination of all men eligible under the first call was ordered as far back as last February.

We would advise these persons to lay their minds spring-cleaned—if not fumigated—and then, by a long course of self-denying work in many of the war causes, seek to qualify for a position in the community as patriots. After which they will possibly arrive at the conclusion that the spirit which moved them in their recent endeavors was far from a right, reasonable or patriotic spirit.

One other piece of advice we would offer such citizens who feel they are called to positions of patriotic endeavor is to look around them in Bassano and see if there are not many phases of War Work waiting their own attention which in the stress of their other activities they have overlooked.

Such persons devoting as much energy to Red Cross work for instance might accomplish a great deal of useful work, which possibly would be of assistance to those whose absence from their circle has embittered and unbalanced them to such an extent, that they have committed themselves to acts of petty spite which in their sadder moments they would shrink from with disgust.

has been arranged, and the prospects for an excellent evening's enjoyment are very bright.

Everyone is invited—everyone is expected, and it is hoped that everybody will bring a box and contribute to the success of the function.

A movement, praiseworthy if somewhat belated, has been inaugurated among some of the business men to secure for the town a weekly half-holiday during the summer months.

We have expressed in previous issues our views on the matter and we feel that the idea is worthy of adoption.

To be made successful the holiday must be made binding on all business men by a by-law of the town, and we would suggest to those who are responsible for the reviving of the question that they appoint a delegation from among their number to wait upon the Council at its next meeting and endeavor to persuade that body to pass a by-law fixing the day with all the whereases and wherelores, such by-laws usually contain.

Certain oracles in town will no doubt say that it cannot be done; that it will cause hardship on the farmers and loss to the merchants; that it is not practicable and a number of negative proposals of a like nature, but then have we not heard those same oracles discourse just as wisely and just as incorrectly before.

The scheme is workable in other towns, and we notice that it is revived every year after once having been adopted, so there is no apparent reason, except perhaps a mutual mistrust between the merchants, why Bassano should not have its half-holiday also, and why it should not be successful.

We venture to suggest that in a very short while the idea would be the means of binding the town and country closer together, for even in these days the people derive and need recreation of some nature, and the weekly holiday should be the means of supplying such.

Coming events cast their shadows before them—as a rule—but so far we have not seen the shadow of Bassano's Dominion Day celebration or the committees which should be organised by this time, if we are to have our usual big day on July 1st. A public meeting should be arranged as soon as possible by last year's executive to gain an expression of opinion, at least, as to whether a celebration should be held.

The Ladies Aid of the Presbyterian Church will hold a reception for the Rev. T. S. Paton on Tuesday evening at the Church. All members and adherents of the Church and any other interested persons are cordially invited.

The Lady Directors of the Berry Creek Agricultural Society, met this week to draw up the portion of the prize list of the Annual Fair which is allotted to the women's section and they are to be most heartily congratulated upon the spirit of patriotism which actuated their decisions throughout.

One in particular calls for special mention and that was the motion, which was adopted unanimously, to cut out of the list all prizes for fancy work and to concentrate instead upon Red Cross work.

We understand it is the intention of the Society to offer prizes for the best complete sets of Red Cross work.

This should stimulate activity in existing branches of the Red Cross and also be the means of encouraging the formation of others.

Replace Your Buggy With a Ford

MORE than 100,000 Fords are owned by people in Canada in preference to the old horse-drawn buggy and other makes of cars.

Your neighbors, and farmers in every section of the Dominion are abandoning their old buggies—selling their driving horses and buying Fords.

Ford cars are utility cars. They are built to endure the strain of constant daily use over rough roads.

These are the tests every farmer gives his car. The Ford meets them in a satisfactory manner. It is the farmer's car, so why not replace your horse and buggy with a Ford?

BUY AN IRRIGATED FARM

From the Canadian Pacific Railway

BECAUSE

Irrigation makes the farmer independent of rainfall, and assures good crops, not necessarily, but EVERY YEAR. Irrigation makes possible the successful culture of alfalfa, the King of Alfalfa, which insures good returns in dairying and mixed farming; Irrigation means intensive farming and close attention, with all the advantages of densely populated agricultural communities.

Irrigation on the Canadian Pacific Railway is no longer an experiment. For years it has been tried, having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record.

ESTRAY

Estray on the premises of Mrs. Theo. Schmitzler, N.W. 34 Ave. Tp. 23, R. 10. Since Nov. 15th, 1917, I, light r. w. 2 yr. old heifer with red neck, bob tailed branded NY on left shoulder.

On first thought it seems inappropriate to talk about a wonderful new diamond in war times. But the fact that this diamond has been donated to the British Red Cross makes it not only proper but also fitting. For four years there has been a Red Cross rate at Christy's in London and each year some entirely unexpected sum has been added to the total amount. Until recently no attention was paid to this rate, but quite unexpectedly appeared this wonderful diamond, of the palest exquisitely primrose yellow and of enormous weight for a diamond of this size. It is larger than any diamonds known, except "The Star of South Africa" (in the Imperial crown) and the drop of the Royal Sceptre) and the Matson diamond belonging to the Rajah of Bombay.

The famous Koh-I-Noor in Queen Mary's crown is not quite so large as the Regent or Pitt diamond, although up to this time as the only diamond showing a Maltese cross in the top face, weighs 1363 carats. This new diamond, which weighs 200 carats, is a perfect Maltese cross in its top face. It has the power of absorbing the rays of any brilliant illumination to which it is exposed and afterwards emitting them like phosphorescent light day and night. This diamond was cut by Mr. J. D. Bassano in the Jeweler's Hall, Birmingham, in 1901. So far it has not been named but will probably be known as the Red Cross Diamond.

What The World's Authorities Say of Threatening Famine

Lion Rhomala, Food Controller for Great Britain.

"The Allied leader is dangerous's enemy, but we are carrying on a resolute belief that we can rely on the people of North America to prevent us from being taken from home to diminish as to imperil the food for which we are all fighting."

Dr. J. W. Robertson, Chairman of the Advisory Council, Canada Food Board.

"The campaign for the increased production of food for Europe, initiated by the Canada Food Board, is of the most vital importance to the victory of the Allied cause. The crisis is grave and urgent beyond expression of exaggeration."

W. B. Thompson, Chairman of the Canada Food Board:

"Great Britain is on shorter rations than at any time in the last one hundred years." The situation not only is grave, but the position of the Allies is terrible. A large measure of responsibility for providing food for Europe falls upon Canada. Every available force in the citizen mass must be utilized. Men in munitions factories at present are in ample demand, and there is no time to be lost who should be relieved men still are needed on the farm, the Canada Food Board appeals get out of the rut--do not be afraid to go outside the boundaries of rationing, as far as possible, while our food supplies are so dangerously low and starvation is threatening our Allies."

Archibald Brewster, Vice-Chairman of the Canadian Food Board:

"We must come to the aid of our soldiers by sending them the food which they ask for."

Mr. Herbert Hoover, United States Food Administrator:

"The general experience of the Allies from this continent is about 45,000,000 bushels short of the amount promised, while meat exports are also very far behind the quantity which it had been planned to send, and upon which the Allies were counting."

Hon. W. B. Dunnigan, Director of Production, Canadian Food Board:

"The Allies require from every farmer in Canada 10 acres of wheat in 1918 for every 7 acres grown in 1917, on the basis of average yield."

The latest and possibly most deserving case of complaint against the harsh laws imposed upon the salaried men by the Canadian Postmaster General of the Canadian Postmasters Association.

These men have had a legitimate grievance for years previous to the war and present conditions make their position well-nigh intolerable.

They have been having an agreement which took effect at the outbreak of the Canadian Postmasters Association.

Such an important work as the postmen have to perform should not be inadequately paid for by the Government and we trust that their complaint will stick and their conditions of employment made more equitable.

Potter, the Painter, has done much to brighten up the business section of the town and is prepared to do the same for the residential district if required. Some of the residences could do with a coat or two of paint.

Together with other interested citizens we paid a visit to the generating plant of the Electric Light Company this week, and we are more firmly convinced than ever that the charges in force at the present time could be reduced quite comfortably.

The last shipment of articles made by the local branch of the Red Cross was the largest ever delivered from Bassano. Excellent work ladies. Now men what are you going to do—the branch is short of funds—you can help in that direction.

Art Stewart, of Pandosy, the well known breeder of Darto Jersey hogs, will donate a registered hog to the person who can catch the name hog at Pandosy, Berry Creek Agricultural Society Sports day, June 3rd, and hog of course is to be well greased before the contest.

Without prejudice now, Mr. Brown, don't you think a little reduction in the scale of charges should be made to the town, just to show the taxpayers your company is appreciative of the gift made to it by the Council. A 25% reduction would not be too great a return for the concession given you.

Heads List for State of Montana

Former Bassano Pupil Wins Distinction

The many friends of Phyllis Cooper, who for some years resided here with her aunt, Mrs. Walter Marlowe, will be pleased to hear of the distinction she has gained in a recent competition which was open to school children in the State of Montana.

The competition was in the form of an Essay on Thrift Stamp Saving and though Phyllis is barely nine years old her essay was adjudged to be the best of the whole number sent in which was very large. Her nearest competitor was a girl of 15 years of age.

The subject of the essay was one which would cause men and women of mature years considerable study in the preparation of a readable effort, and for a girl so young, to lead the State on such a topic is somewhat remarkable.

Phyllis however, carries her precept in practice for we see that she is secretary of her school for the Thrift Stamp Saving scheme, and we find the contribution made by her school amounting to \$7,17.57.

This is a scheme which could well be copied in Bassano, if only for the purpose of purchasing War Saving Certificates. It is a most excellent idea and one which might have far-reaching effects.
